

*The Geysers*

# Geothermal Energy

## California's "Hot & Steamy" Renewable Resource

Geothermal energy provides steady, clean and affordable power to Californians around-the-clock. Here are some facts you may not know about this unique energy resource.

## California

has more geothermal generating capacity than anywhere in the world, including the world's largest operating geothermal facility at *The Geysers*, with more potential.

Operation of *The Geysers* helps avoid emissions equivalent of 2.4M tons of carbon dioxide – taking more than

# 432,000 cars off road

*The Geysers*  
**Helps achieve 33%  
by 2020 RPS  
and AB 32 goals**

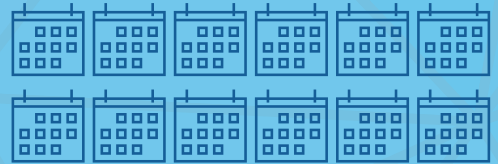

**Supports hundreds  
of jobs**

*The Geysers*  
supports around 375 skilled, local,  
full-time jobs

Join Calpine, along with the men and women who work hard to provide this clean and reliable energy resource to California consumers, in celebrating Geothermal Awareness Month during May.

*The Geysers* – providing Californians with clean, reliable and affordable power for **more than 50 years (since 1960)**

## Provides power 365/24/7

*The Geysers* provides enough clean energy to **power a city the size of San Francisco**

*The Geysers* is the **Largest taxpayer** \$\$\$  
in Lake and Sonoma Counties

**Geothermal Awareness Month: May 2014**
